

To Whom It May Concern,

It is with great pleasure that we submit this letter of recommendation for Granger Construction. We have been associated with Rob Granger and company for several years and have never failed to be impressed with his professionalism and no nonsense approach to his business dealings. When we contracted with Granger Construction to build our dental office it was, at the time, the largest professional building in Lake County and entailed all of the leading edge technology and design of its day. We consulted other construction companies, including some out of state, but settled on Rob due to his reputation and assurance of a set completion time and promise of prompt followup with problems that we may have in the future. In fact, Rob did complete the construction before the agreed on date and we have had little to no problems since occupancy. We believe his success was due to the fact that he is very good at getting his subcontractors to do their work in a timely fashion and follows the proposed plans, which were designed by a firm in Texas, to precise detail. Since the completion of our dental office we have used Granger Construction for other projects and, as stated above, have not been disappointed with the quality or promptness of his production.

If we can be of any further service in this recommendation or other matters, please do not hesitate to contact us.
