

To Whom It May Concern:

I would like to take a few minutes of your time to tell you of my experience with "Granger Construction".

In 1993, "Granger Construction" built my 2500 square foot dental office. I had a deadline for completion which was met and exceeded my expectations. All phases of construction were done in a very professional and timely manner. This is generally difficult for most construction companies to do.

"Granger Construction" is very experienced in all phases. Their warranty work is backed up in a very timely manner. When Rob Granger tells you when to expect work completed, you can feel assured it will be either early or on time. Something as simple as him returning a phone call is always handled the same way.

I have also used "Granger Construction" for a few smaller jobs with the same excellent results. As you can tell, I have developed an excellent working relationship with Rob and would definitely use him again for any future construction needs.

It is rare in this day and time to walk away from a job not only happy with the results, but gain a new friendship at the same time. I would welcome any future inquiries about "Granger Construction" and please feel free to call if you have any questions concerning this company at any time.

Sincerely,

V. Dale Meeks, D.M.D.
